

About Western Michigan University Homer Stryker M.D. School of Medicine

WMed is committed to excellence and health equity through transformative medical education, high-quality patient- and family-centered care, innovative research, and community partnerships within a welcoming, supportive, and engaging culture. Our vision is health equity for all in Southwest Michigan through innovation in the practice and study of medicine. The medical school is a collaboration of Western Michigan University and Kalamazoo's two teaching health systems, Beacon Health System and Bronson Healthcare. As a private nonprofit corporation, WMed is supported by private gifts, clinical revenues, research activities, tuition, and endowment income. We offer the Doctor of Medicine degree and a Master of Science degree program in Biomedical Sciences. We train physicians in 10 accredited residencies and five fellowships. WMed has more than 1,300 employed and community faculty committed to serving as teachers and mentors to our 342 medical students and 263 residents and fellows. WMed Health is the clinical practice of the medical school with more than 300 providers offering comprehensive primary care and specialty services in locations throughout Kalamazoo and Battle Creek. The Department of Pathology members serve as the Office of the Medical Examiner for counties throughout Michigan and northern Indiana. The Center for Immunobiology, Center for Clinical Research, Research Histology Lab, Innovation Center, and Human Research Protection Program contribute to the medical school's advancement of knowledge through innovation and discovery.
