- 21 days of vacation are allotted per training level. Residents are able to self-schedule vacation during EM rotations with a maximum of seven days of vacation allowed per block.
- Each resident can submit one request to the program coordinator regarding their block schedule for the following year. This is helpful if you know you will need time off for a specific event.
- With advanced approval 2 weeks of elective time may be moved into PGY2 year from PGY3 year in order to facilitate career development activities
